presentation

Welcome once again to the meeting point for excellence of the frozen World: The International Frozen Seafood products exhibition, Conxemar 2011, reaching now its twelfth edition and which is expected to strengthen the good results achieved in 2010.

From the 4th to the 6th of October, Conxemar 2011 hosts a wider range of companies and institutions that arrive in Vigo with their best products and services. Processed raw material, frozen products and the most advance technology have their place in this event, currently the number one in the country and one of the most important in the fish processing industry worldwide.

During these three days, thousands of professionals from around the world will visit IFEVI´s exhibition site, where they will have the opportunity to contact customers and suppliers and see at first hand the latest advances of the Industry.

The chosen setting to hold this unavoidable event has been the city of Vigo, linked from its very origins to the sea and all its related activities, ready to welcome the thousands of professionals that will visit Conxemar to verify once again its role as a showcase for new products and an unbeatable scene for business transactions.

The 13th International Frozen Products Exhibition has been exclusively promoted and managed by professionals in the sector grouped together in the Spanish Association of Wholesalers, Producers, Importers and Exporters of Sea Products and Aquaculture (Conxemar).

Exhibitor Support Team: feria@conxemar.com
Communication: prensa@conxemar.com

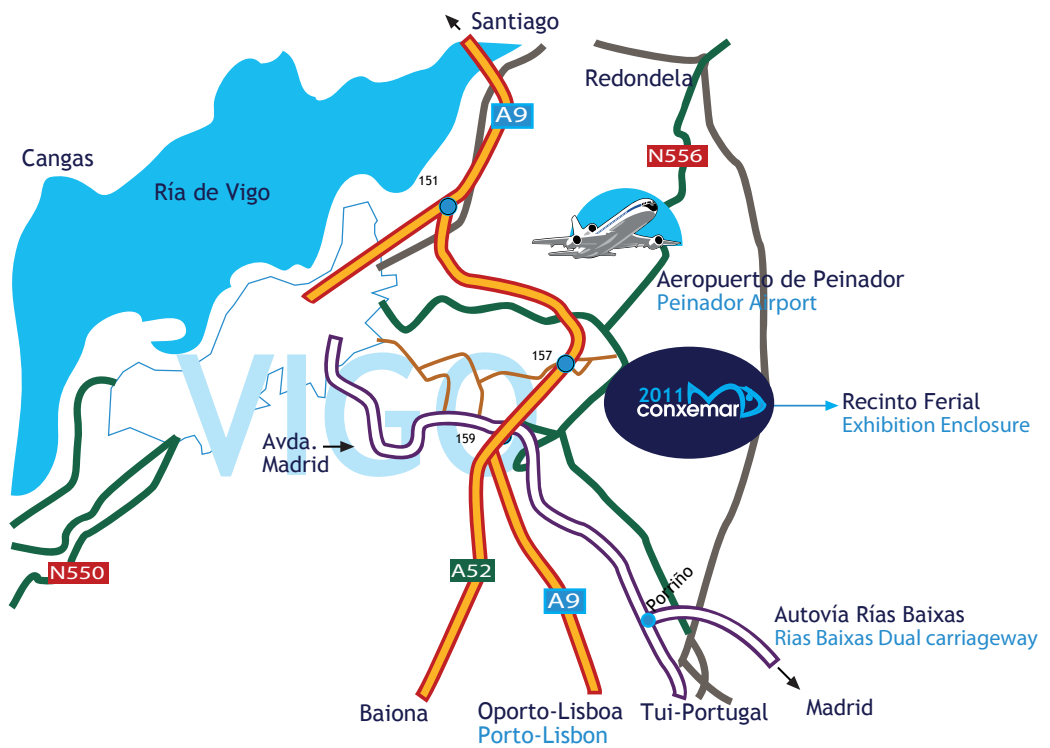

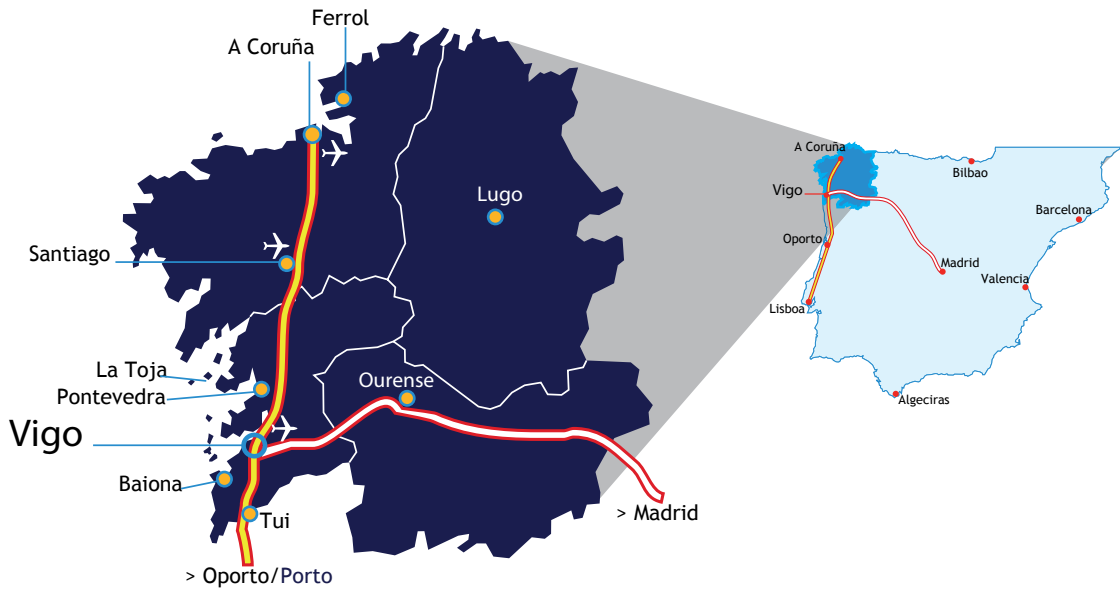

The Conxemar team collaborates with the following firms for the organisation of this Exhibition:

regulation

1. REGISTRATION

The following catalogue has been created to facilitate your participation in Conxemar 2011. There are application forms from page 14 to hire all available Services.

1. **PAYMENT TERMS:** Cash, Services will not be provided unless payment has been settled.
2. **DEADLINES:** Deadline for Services payment is the 15th of September. From that date on, a 50% penalty fare will be applicable.
3. **METHODS OF PAYMENT:** By cheque or bank transfer to:

Bank: BANCO POPULAR
 Bank address: C/San Francisco, 49- 36.202- VIGO - ESPAÑA.
 Account number: 0075 1012 18 0600237292
 IBAN code: ES82 0075 1012 18 0600237292
 Swift code: POPUESMM

Bank: NOVACAIXAGALICIA
 Bank address: Avda. García Barbón 1- 36.201- VIGO-ESPAÑA
 Account number: 2080 0000 78 0040270852
 IBAN code: ES48 2080 0000 78 0040270852
 Swift code: CAVIES2V

Exhibitor will be responsible for bank fees for both transfer or cheque payments.
 Note: Transfers made from foreigners companies must indicate the clause OUR

4. **VAT:** From the 1/1/2011. companies not based in spanish territory are exempt of VAT payment so all services will be invoiced with VAT 0%.

2. SETTING-UP HOURS

- Visitors opening hours: from 10:00 to 18:00, except on the 6th of October when the closing time will be 16:00.
- Exhibitors will be able to have access to their stands one hour before the opening hours and must stay there until half an hour after the closing hours. Due to security reasons, it is strongly recommended not to leave the site until all visitors are gone.

3. ALTERATIONS AND CANCELLATIONS

- The Organization reserves the right to alter the opening and closing hours due to major force of any nature, having the exhibitor no right to compensation.
- The exhibitor is not allowed to give away the occupation rights of the stand nor allow the promotion of other companies' merchandising without written consent by the Organization. Failure to comply with this rule may lead to the closure of the stand.
- There will be no refunds in case of cancellation or reduction of the space requested through the registration form, even in the eventuality stated in the previous paragraph.
- The exhibitor will not be able to cancel the services hired through the Services Catalogue from September 15th, 2011 and there will be no refund of any of the payments made for that purpose.

4. EXHIBITORS' BADGES

- The exhibitors' badges must be applied for at: <http://expositor.conxemar.net>. using the exhibitor's ID and password
- Once the application form is complete, the exhibitor will receive an electronic badge that the exhibitor will have to print. When the exhibitor attends Conxemar 2011, he will then be provided with the plastic envelope and chain in which to carry the badge.

regulation

5. COMPLIMENTARY TICKETS

- The visitors' badges must be applied for at: <http://www.conxemar.com/ingles/acreditaciones.htm>.
- The price for the entry at the ticket office is 30,00 €/each.
- It is essential to fill in all the details on the complimentary ticket in order to get the badge that gives free access to the exhibition site.
- No person under the age of 18 will be allowed in the exhibition under any circumstance.

6. EXHIBITORS CATALOGUE

- All exhibitors having duly filled in annexes 2 and 3 of the registration form will be included in the Official Exhibitors Catalogue.
- Each exhibitor will receive a free copy.

7. INSURANCES

- Public liability insurances including material damage and physical injury to exhibitors and visitors are provided by the organisers. The insurance is limited to 3,000,000 € and 150,000 € per casualty, with a 300 € excess. The coverage includes operation, legal defence and bails.
- The exhibitor is responsible for the other insurances that may be contracted according to prices and terms detailed in the catalogue of services (Pg.44). Their coverage include fire, explosion, lightning, extensive risks, replacement expenses, extinguishing expenses, robbery and water damage.

8. CLEANING

- The organisers will provide general cleaning of the site (corridors, wastepaper bins,...).
- For thorough cleaning of the stand please refer to the price list detailed in the catalogue of services. (Pag.43)

9. LOGÍSTICS

9.1 ENTRY/EXIT PROCEDURE FOR TRUCKS DURING SETTING UP/DISMANTLING

In order to improve traffic at your entry and exit of the exhibition center we attach in page 6 the area map indicating access, available parking (including airport´s), location of warehouse and open doors during setting up and dismantling for goods delivery.

Each door will have a sign indicating the corresponding delivery area. Eg: Door 1 unload Zones E, F,G.

9.2 DAYS AND TIMES FOR SETTING UP AND DISMANTLING

regulation

9.3 SETTING UP

When confirming registration for participation, the exhibitor must keep himself informed of special conditions of the space to occupy regarding building regulations, and will be able to request a floor plan of the their stand to the Organization.

9.3.1 Contractors Documentation

- a) It is a compulsory requisite to submit the following documentation to be allowed to proceed with building works:
- Approval of Design Project
 - List of workers for setting up and dismantling
 - Plan of Labour Risks
 - Worker´s TC2
 - Name of Responsible person in charge of Health and Safety
 - Copy and proof of Payment of the Public Liability Policy

The Organization reserves the right to stop building and dismantling activity if any of the documents stated above are missing.

- b) Contractors Badges: When all the documentation has been submitted, contractors will be given a password in order to register online and print their badges through the following link: <http://montador.conxemar.net>. Contractors must bring the badges to be allowed entry in the exhibition Center (IFEVI).

c) Regulations:

- It is not allowed inside the exhibition center the use of cutting machines, sanders or other equipment that produce dust or are not equipped with anti-pollution systems.
- Gun-Painting is not allowed.
- Fitting carpets and/or other types of flooring with glue is not allowed.
- It is not allowed to stick, nail, staple or any other kind of fixing that may cause damage to the site walls.
- Vehicles are not allowed in the pavillions without prior authorisation of the Organization.
- During setting up and exhibition days, corridors must be free of materials, goods, packaging...etc.
- In order to hung any element from the ceiling frame of the exhibition center, the following must be requested to the Organisers.
 - Authorisation
 - Budget for the full placement (this setting up will only be carried out by the Exhibition staff)

- d) No Contractor will be allowed entry in the exhibition center if the building fee of IFEVI (2.64€/sqm + VAT) has not been paid. This fee is paid directly to Conxemar.

CONTRACTORS THAT WILL NEED ELECTRICITY SUPPLY ON THE 27TH OF SEPTEMBER AND 6TH OF OCTOBER WILL HAVE TO HIRE A CONNECTION AVAILABLE IN THE CATALOGUE OF SERVICES, page 37 .

9.4 CORRIDORS AND ACCESS

During setting up/dismantling period and during the exhibition, corridors will be free of materials, goods, packaging, etc.

Spaces indicated for fire prevention items, alarms, emergency exits and service corridors will have to be respected and left accesible at all times.

Floor Plan indicating the corridors to be left free during setting up and dismantling is attached in Anex 2.

9.5 ENTRY OF GOODS

9.5.1 Entry of goods Form

For the entry of machinery/heavy materials or perishable products the exhibitor must send pages 39 and 40 to feria@conxemar.com, before or on the 15th of September with details of the goods nature, size and weight.

With these forms the exhibitor must submit the payment of the services requested (forklifts, warehouse services...). If payment is not submitted within deadline the request of those services will be nule and it is not guaranteed they will be served on their arrival.

Perishable product, refrigerated or frozen can be stored in the cold storage facilities available free of charge from 12.00h on October the 1st.

For the entry of furniture or appliances of your property it is necessary to fill up a form available in the Organization´s office.

Goods of EU origin can be forwarded directly to: Conxemar IFEVI Avda. Do Aeroporto, 772 (Cotogrande) 36318-Pontevedra- Vigo, with the relevant documentation that transport requires. EU Origing goods will enter te exhibition with:

- a) ATA Card
- b) Pro-forma invoice

Only deliveries with ATA Card can be sent directly to Conxemar-IFEVI, any other will have to pass through all customs formalities at their arrival terminals. (truck and plane).

regulation

9.5.2 Identification labels

Identifications labels can be found in pages 41 and 42 that must be printed, filled up and placed in every side of the goods packing, relating the package with exhibitor and stand number.

9.6 DISMANTLING

All exhibitors as well as their contractors are obliged to set up, dismantle and remove materials used for setting up within the periods of time established for those works, so when works are finished exhibitor or contractors must leave the hired surface completely clean of residues and construction materials.

After that period, Conxemar will not be responsible of any goods, stands and decoration elements that remain in the space hired by the exhibitor.

9.6.1 Exit of Goods

Exit of goods is allowed (by hand) from 16.00h the 6th of October 2011.

Dismantling and exit of goods that require the services of forklifts will not begin until 18.00h on the same date.

EXIT WILL NOT BE ALLOWED IF THERE IS ANY OUTSTANDING FEE WHEN THE EXHIBITION IS CLOSED.

Non EU deliveries will go through custom formalities.

Cold storage will be working until 12.00h of October 7th. From that time onwards, Conxemar declines responsibility over the products left behind.

10. PARKING

During Exhibition days, all IFEVI's parkings are for vehicles use exclusively. It is not allowed to park trucks, vehicles destined for delivery of goods or Buses in any of those parkings.

Available parkings are shown in Anex1 (including Airport's parking)

Exhibitor parking: free of charge

Visitors parking: free of charge

Airport: 1€ per hour

11. TRANSPORT (Buses)

During Conxemar 2011 (from the 4th until the 6th of October) there will be bus services free of charge for Exhibitors and Visitors :

Vigo - IFEVI(exhibition Centre) - Vigo

Vigo's Airport - IFEVI - Vigo's Airport

Timetable and routes are now available in our website:

<http://www.conxemar.com/autobuses.htm>

12. PROYECT

1. In order to build a free-design stand, all exhibitors must submit the plans (side view and contour map) to be approved by the organisers. Deadline is July 31st, 2011 (even for those repeating design of previous editions). Designs must be mailed to proyectos@conxemar.com

2. Two-floor stands must be designed by a competent technician and approved by the respective professional association, including project design and construction supervision. The number of square metres built on the second floor must also be stated.

3. Those designs being submitted after deadline will be penalised with 150,00 € as delay.

4. Conxemar will grant the permission for building the stand -provided the design complies with the guidelines- within 30 days. Otherwise, the organisers will inform the exhibitor in writing about the changes to be made in order the initial design to be approved. The setting-up permission will not be granted until the design fully complies with the guidelines.

regulation

13. HEIGHT

- Stands may not exceed 3.5 metres in height. However, heights of up to 6 metres - including all advertising elements - may be authorized once the construction project has been approved by the Organization. Construction above 3.5 metres will entail an extra charge, as specified by IFEVI, payable to Conxemar.
- Walls and decorative or advertising elements over 3.5 m, must be placed a minimum of 1m away from the perimeter and will not be higher than 25% of the length of the perimeter.
- Any element hung or otherwise from the ceiling trusses must comply with the Exhibition regulations on heights.
- Advertising elements hanging from the building's trusses may be placed at a maximum height of 6 metres, and set 1 metre away from the perimeter of the stand front, along all aisles. Exhibitors require a special authorisation and the corresponding extra advertising charge payable to IFEVI (Tel. +34 986 486 144).
- It may be possible to fix an electric truss stand front line, provided it does not contain any advertising element and it does not exceed the maximum permitted height of 6 metres.

14. WALLS AND CLOSINGS

- Partition walls must be fitted (e.g. with panels) on stands adjacent to other stands. Those partition walls projecting over the neighbouring stand wall must be fitted with a panel in neutral colours and free of advertising, so that they do not impair the image of the neighbouring stand.
- In every stand, at least one third of the length of the stand front overlooking the general aisles must be covered with glass (transparent) or left open. All of the stand and advertising components, either perimeter or interior partition wall must have 1/3 of the length of the perimeter opened or fitted with panels. The total enclosure of the perimeter will only be allowed if railings or panels of no more than 1 m high are used and if they allow the visibility of the whole stand.
- Stands located in the perimeter of the fairground, that is, those having their back against the wall may have its rear wall to a maximum height of 6 meters

15. WEIGHT

- The maximum load allowed on the floor is 2,000Kg/sqm

16. ELECTRICITY

- Electricity will only work during the exhibition hours.
- Any stand in need of round-the-clock electricity supply must install a 24H CONNECTION according to the prices stated in the catalogue of services. (Pag.42)

17. WIRING

All the wiring must be accomplished by an official electrician authorised by the Organisation's technical services, according to the general regulations concerning Safety of low-tension wiring. Only the Organisation's technical services are enabled to make the connections to the electricity mains of the pavilions, and they will verify the installations lacking the Electricity official form (this service must be hired on page nr 42 of the catalogue of services). In case of inappropriate wiring, the organisers reserve the right to not supply electricity to the stand.

1. General rules for wiring

Installations will be in accordance with the Low-tension electro technical regulations (Royal Decree 842/2002, of August 2nd), and the Complementary technical instructions.

Those installations that will be supervised are switchboard shunting and wiring.

The exhibitor is not allowed to alter the wiring in the stand; receivers just have to be plugged in the power points placed for this purpose by the electrician.

The exhibitor, contractors and/or subcontractors will be liable for any damage due to changes in or misuse of the electricity system.

2. Wiring legalization, supervision and authorisation

In the case of stands where the power to be supplied is under 50 kW, it will be essential to submit a Certificate of low-tension wiring, together with a Technical report on design -according to ITC-BT-04, point 4-, stamped by a competent body of the Galician government (Xunta de Galicia).

In the case of stands where the power to be supplied is 50 kW or above, it is essential to submit the design approved by the Engineers' official association of the place it comes from -according to ITC-BT-04, point 3.1- together with a Certificate of low tension wiring, stamped by a competent body of the Galician government (Xunta de Galicia).

regulation

18. WATER

All inside water supplies will be controlled by the Organisation's technical services. The Organisation will not be responsible for the services rendered by the public water supplier.

19. SAFETY

Conxemar guarantees general surveillance services during the time for setting up, fare activity and dismantling of the Exhibition.

EXHIBITORS ARE RESPONSIBLE FOR TAKING CARE OF THEIR MATERIALS AND MAY REQUEST A COMPLEMENTARY INSURANCE during their PARTICIPATION IN THE EXHIBITION. Those wishing to step up security on the stand may only contract personnel via the company serving Conxemar. All guards must wear a uniform.

Entrance and freedom of movement within the Conxemar complex is allowed only when wearing a personal identification card, which must be clearly visible, as issued by the Organisation Office. **DURING PERIODS FOR SETTING UP, EXHIBITION ACTIVITY AND DISMANTLING, THE PRESENCE OF THE EXHIBITORS ON THEIR STANDS IS SUGGESTED.** On the first day for dismantling (7th October from 18:00 to 0:00 hr.), exhibitors must be present on their stands from 16:00 hr. until all their materials have been removed. In order to step up security measures, exhibitors must comply with the following regulations:

- **BE PRESENT ON THEIR STAND DURING EXHIBITION ACTIVITY**
- **WEAR PERSONAL IDENTIFICATION CARD WHICH IS TO BE CLEARLY VISIBLE**
- **LIST OF EQUIPMENT AND COMPLEMENTS WHICH THE EXHIBITOR CONSIDERS TO BE ESSENTIAL, ON THE GOODS ACCESS FORM**

20. OCCUPATIONAL HAZARD IN THE SHOWGROUND OF VIGO

risk	preventive measures
Knocks, falls due to slipping, stumbling, etc.	<ul style="list-style-type: none"> • Keep the floor clean and dry. Use non-slip footwear • Avoid rushing around within the Exhibition Enclosure.

Conxemar guarantees general surveillance services during the time for setting up, activity and dismantling of the Exhibition. **EXHIBITORS ARE RESPONSIBLE FOR TAKING CARE OF THEIR MATERIALS AND MAY REQUEST A COMPLEMENTARY INSURANCE FOR PARTICIPATING IN THE EXHIBITION.**

regulation

21. PARKING VEHICLES

No parking in the loading and unloading area is allowed. Vehicles must be parked in the parking areas. It is forbidden to access any IFEVI building without the express authorisation of the IFEVI personnel and to handle any machinery, controls or tools. This information is provided for your own safety.

22. NOISE

Demonstrations of noisy machinery or other products at the exhibition must be kept to a minimum out of respect for nearby stands. **AUDIOVISUAL TRANSMISSIONS SHALL BE CONDUCTED WITH THE MINIMUM SOUND** and equipment must be placed to allow visitors to access the stand if they wish to see them.

23. FUMES AND GAS

Any gas or fumes issued by equipment at the exhibition which may be harmful to the health and which may cause any other damage should be discharged through the appropriate piping. Fitting of said piping shall require the authorisation of the Organisation's Technical Service.

24. COOKERS INSTALATION

ELECTRIC COOKERS AND DEEP FRYERS

- There will be an extinguisher in the cooking area
- The cooking area will not be accessible to the public. There will be no flammable materials in this area.
- A document specifying the name of the responsible person for the security of the kitchen installed in the stand must be submitted. The document will be signed both by the exhibitor and the designated responsible.

GAS INSTALATIONS

- There will be an extinguisher in the cooking area
- The Gas Installation must be certified by a qualified technician. A copy must be submitted for revision
- A document with the name of the person responsible for the security of the kitchen installed in the stand must be submitted. The document will be signed both by the exhibitor and the designated responsible
- In the case that a cooker of three legs, like those used to cook octopus, will be installed, it must be appropriately isolated from the floor using a steel plate.
- Kitchens must be enclosed with non-flammable panels or railings in order to keep public away from the cooking area. There will not be flammable materials in that area.

THOSE EXHIBITING COMPANIES INTERESTED MUST SUBMIT THE INFORMATION REQUIRED AND ENSURE THOSE PREVENTION SECURITY MEASURES INDICATED ABOVE ARE FULFILLED. STANDS WILL BE INSPECTED THE 5TH OF OCTOBER.

25. ADVERTISING

Publicity (static or dynamic) is not allowed outside the stands or in any part of the enclosure. Direct selling to the public is forbidden.

29. MEALS

Meals services will be available at the Exhibition for those attending; restaurant, self-service and cafeteria.

- Navy-blue fireproof fitted carpet placed directly on the floor and protected with plastic during setting-up.
- General structure in anodised aluminium in its own colour
- Ceiling with aluminium grid for placing lighting points
- 3m-high panels in white melamine.
- 3m-high sloped front in blue melamine, crowned with cornered ceiling at 3.5m in blue melamine with built-in Metasol.
- Magnetothermal switch and one 1000 -w socket.
- 300-w rail halogen lights at a rate of 75w/sq.m.
- 1 sign with standard lettering in white adhesive vinyl on each side facing the corridor.

stands stands

modelo 3

code: STTIPO03

CHARACTERISTICS AND FIXTURES

- Exhibition fire-proof fitted carpet in speckled grey and a border in the same colour as the side panel, placed directly on the floor and covered in protective plastic during setting-up
- General structure in anodised aluminium in its own colour
- Ceiling with aluminium grid for placing lighting points
- Panels in white melamine excepting ends in blue, red, yellow or black
- Front with curved panel in white melamine
- Switchboard with a magnetothermal differential and one socket for 1,000w
- 300w rail halogen lights at a rate of 75w/sqm
- 1 sign with standard letter in adhesive black vinyl on each side facing the corridor

CHARACTERISTICS AND FIXTURES

- Grey fireproof fitted carpet with navy-blue perimeter strip placed directly on the floor and protected with plastic during setting-up.
- General structure in anodised aluminium in its own colour
- Ceiling with aluminium grid for placing lighting points
- 3m-high panels in white melamine excepting for the borders in blue melamine.
- 3m-high front in blue melamine with white cantilever at 3.5m for signing purposes.
- Magnetothermal switch and one 1000 -w socket.
- 300w rail halogen lights at a rate of 75w/sq.m.
- 1 sign with standard lettering in black adhesive vinyl on each side facing the corridor.

modelo 5

code: STTIPO05

modelo A1

code: STTIPOA1

CHARACTERISTICS AND FIXTURES

- Exhibition fire-proof grey fitted carpet with a 0,5m wide blue border placed directly on the floor and covered in protective plastic during setting-up.
- Panels in beech melamine with ends in standard blue and general structure in anodised aluminium in its own colour.
- Ceiling with aluminium grid for placing lighting points.
- 3,5m high wall making a 0,5x1x1m corner in modular blue panel with aluminium structure in its own colour with a backlight banner printed with image and/or logo given by the client (images will be printed at cost price).
- Front in modular blue panel with aluminium structure in its own colour with the front part in backlight methacrylate with the name in standard black vinyl in the open sides.
- 1x1m Warehouse with modular locking door
- Switchboard with a magnetothermic differential and one socket for 1000w.
- 300w rail halogen ligths and fluorescents in light boxes for the backlight banners at a rate of 75w/sqm.
- Equipment: 1 round white table, 3 white maga chairs, 2 angled white shelves, 1 modular beech counter with blue top.

modelo A2

code: STTIPOA2

CHARACTERISTICS AND FIXTURES

- Exhibition fire-proof grey fitted carpet with a 0,5m wide blue border placed directly on the floor and covered in protective plastic during setting-up.
- Panels in beech melamine with ends in standard blue and general structure in anodised aluminium in its own colour.
- Ceiling with aluminium grid for placing lighting points.
- Wall of 0,5x1x1m with a height of 3,5m in modular blue panel with aluminium structure in its own colour with two backlight banners printed with image and/or logo provided by the client (images will be printed at cost price)
- Front in modular blue panel with aluminium structure in its own colour with the front part in backlight methacrylate with the name in standard black vinyl in the open sides.

ELCOTC24	POWER CONSUMPTION		x 24	x 5	0,22	

TOTAL CONSUMPTION

How to calculate electrical consumption?. To help you with calculating the electrical consumption on your stand, we enclose the following list.

Explanation: sum of power in kw x nº of hours (by day 8h., 24h. day and night) x exhibition days (3 exhibition + installing/dismantling) x tariff= Cost of power supply
